WARRANT

FOR THE

Regulation

OF THE

BARRACKS,

IN

GREAT BRITAIN, IRELAND, AND THE COLONIES.

Dated 16*th March*, 1824.

London:

PRINTED BY J. HARTNELL, WINE-OFFICE-COURT, FLEET-STREET,
FOR HIS MAJESTY'S STATIONERY-OFFICE.

1824.

GEORGE R.

WHEREAS We have judged it expedient, in the view of diminishing the number of the Departments of Government by the consolidation of them, whenever the same appears practicable, without injury to the Public Service, to alter and amend Our Warrant, granted in the name, and on the behalf of His late Majesty, bearing date the 25th day of December, One Thousand Eight Hundred and Sixteen, vesting in the Comptroller of the Barrack Department certain powers as described therein, for the better Management and Regulation of Barracks; and to revoke a Warrant granted by the Lord Lieutenant-General, and General Governor of Ireland, bearing date the 25th of July, One Thousand Eight Hundred and Fourteen, vesting in one of the Commissioners of the Barrack Board, and Board of Works, certain powers as described therein for the Regulation of the

Barracks in Ireland; and also to annul the various powers which have been granted from time to time for the Management and Regulation of Barracks in all Our Colonies and Garrisons Abroad (New South Wales and the Island of Ceylon excepted); and to transfer the Charge and Management of all Barracks erected, or to be erected, for the general service of the Army in Great Britain and Ireland, the Channel Islands, and the Isle of Man, and in all Our Colonies and Garrisons Abroad (except New South Wales and the Island of Ceylon, at the former of which the Ordnance have not at present any Establishment, and at the latter the Barracks have heretofore been under the Management of the Colonial Government,) from the said Comptroller of Barracks; the Commissioner of the Barrack Board and Board of Works, and all other persons in whom the same were vested—to You and Our Board of Ordnance, or to Our Master-General and Board of Ordnance for the time being, who shall in future undertake the entire superintendance of all matters relative to the Barracks of Our Army within

within the limits aforesaid, the re-erection and repairs of the same, and the Building of new Barracks, Quarters, or Hospitals, where required; and who shall take care that the several Barrack-Masters do diligently fulfil the duties of their offices, and that Our Troops be regularly supplied with the different Articles of Furniture, Fuel, Candles, and other Stores to which they are, or may be entitled by the Regulations of Our Service: and You and Our Board of Ordnance are hereby vested with full powers, rights, and authorities for the same.

The Sums from time to time necessary for the service of the Barrack Department shall be provided for by Estimate, to be approved by the Commissioners of our Treasury, for the time being, and Annually submitted to Parliament.

Whenever there shall be a necessity for making Alterations or Repairs in Barracks, where such Alterations or Repairs shall exceed the sum of Five Hundred Pounds, you are, previously to carrying the same into execution, to cause an

Estimate of the Expence to be prepared, accompanied by a Plan, in cases where it may be practicable to have one, which Plan and Estimate, or Estimate only, as the case may be, shall be submitted to the Commissioners of Our Treasury, whose approbation of such Plan and Estimate, or Estimate only, as the case may be, shall be Your Authority for undertaking such Alterations or Repairs.

And whereas We have judged it expedient that, as far as may be practicable, one regular and uniform system be established in all matters relating to the Government of Barracks within the limits aforesaid.

Our Will and Pleasure therefore is, that the following Rules, Orders, and Directions, shewing the reciprocal duties of the Barrack-Masters and the Troops, be observed as the Regulations of our Barracks within the limits aforesaid.

First.—The Officer commanding in any of Our Barracks, and the Barrack-Masters shall, in

all matters relative to the accommodation, disposition, and supply of the Troops stationed therein, conform to the Regulations of the said Master-General and Board of Ordnance, to whom all Applications and Requisitions respecting the same are to be made by or through the respective Barrack-Masters; and all Officers and Barrack-Masters are hereby directed and enjoined to obey such Orders and Directions as the said Master-General and Board of Ordnance shall find necessary to be given thereon.

SECOND.—Every Barrack-Master shall, upon notice from the said Master-General and Board of Ordnance, or on production of the Route by which Troops are ordered to March, attend the arrival of such Regiment or Detachment as shall be ordered to Quarter in any Barrack under his charge, in Great Britain and Ireland, the Channel Islands, and the Isle of Man, and in our Colonies and Garrisons Abroad; and having received from the Commanding Officer, or such Officer as he shall appoint, a Return specifying the Number of Officers, Non commissioned

missioned Officers and Soldiers, Horses, &c. &c., for which Barrack accommodation is required, the said Barrack Master shall allot the same according to Our Regulations; and having, with the Commanding Officer, or with such Officer as he shall appoint, viewed the condition of the said Barrack and Hospital (if any,) and of every Room and part thereof, and of the Bedding, Furniture, and Utensils belonging thereto, shall deliver the same to such Officer, with an Inventory under his hand, stating the particular condition thereof, two copies of which Inventory shall be signed by the Commanding Officer and Barrack-Master; one of which shall remain with the Commanding Officer, and the other with the Barrack-Master; and from the time of such delivery the Commanding Officer shall stand charged with the said Barracks, Hospitals, Bedding, Furniture, and Utensils, according to the Inventory, until such Regiment, or Detachment, shall be relieved or ordered away; and the like method shall be observed by both Officers and Barrack-Masters upon every relief or removal; and after

delivery

delivery made, and receipts taken, the Barrack-Master shall not exchange any articles unless it be certified by the Commanding Officer, that the said articles have been rendered unserviceable—such certificates to remain with the Barrack-Master.

THIRD.—Each Barrack-Master shall make frequent inspections of the Barracks and Hospitals under his care, and of the appurtenances, and report the state thereof to the Master-General and Board of Ordnance; and the said Barrack-Master shall, in conjunction with the Commanding Officer of each Regiment, or Detachment, or such Commissioned Officer as he shall appoint, once in every Month make a minute inspection of the several Buildings, and also of the Bedding, Furniture, and Utensils in charge of each; and a like inspection at the time when any Regiment, or Detachment, shall be removed; and if, upon such inspection, it shall be found that, after every allowance is made for wear and tear, further damage has been done to the Buildings, or any part thereof,

or

or that any of the Bedding, Furniture, or Utensils have been injured, destroyed, lost, or embezzled, the Barrack-Master shall then form a just estimate of the expence of making good the damage of such articles as may be injured, but shall charge the full amount of the first cost of such as shall have been destroyed or embezzled, an account whereof he shall transmit to the said Master-General and Board of Ordnance, and for the amount of which he shall make immediate application to the Commanding Officer; and if his demand be not paid within seven days, it shall be verified by the affidavit of the said Barrack-Master, and forwarded to the said Master-General and Board of Ordnance, who shall transmit a copy thereof to the Officer concerned, and shall require his immediate answer thereto; and if, upon such answer received, it shall appear that injury has been done to the Buildings or Furniture, and that the charge made by the Barrack-Master is just and reasonable, the said Master-General and Board of Ordnance shall certify the amount to our Secretary at War, in order that he may direct

the

the same to be charged against the Regiment, or Detachment, concerned. But in case it shall appear that the inspection has not been made in due time, or the demand has not been brought by the Barrack-Master as soon as possible after inspection, the damage shall be made good by himself. The Commanding Officer shall take care, on the removal of the Troops, that the Rooms, Staircases, Galleries, and other parts, be left properly swept and clean, and delivered in that state to the Relieving Officer, or Barrack-Master; for which purpose, and for ascertaining the amount of any charges which may be brought against the Regiment, or Detachment, by the Barrack-Master, a Commissioned Officer is to be left behind until the same is done. In the event of such Commissioned Officer not being left behind, the Barrack-Master shall immediately verify the charges by Affidavit, and forward the same, as before directed, to the said Master-General and Board of Ordnance, who shall transmit a Copy thereof to the Commanding Officer of the Regiment, or Detachment, concerned, and shall require his

his immediate answer thereto; and if, upon such answer being received, it shall still appear that the charge made by the Barrack-Master is just and reasonable, and no sufficient reason be also assigned why such Commissioned Officer was not left behind as hereby required, or the Damages accounted for prior to the Regiment, or Detachment leaving the Barrack, the said Master-General, and Board of Ordnance, shall certify the amount to Our Secretary at War, in order that he may direct the same to be charged against the Regiment, or Detachment, concerned.

FOURTH.—And We do hereby direct and require the Commanding Officer of each Regiment, or Detachment, to give strict orders to the Officers and Soldiers under his command to be particularly careful that the Barracks and Hospital Yards, Parades, Passages, Rooms, Staircases, Galleries, Beds, Bedding, Furniture, and Utensils, and all the Buildings, &c., delivered over to them, be kept sweet and clean, and not to permit or suffer any of the Non-Commissioned

Commissioned Officers or Soldiers to make use of any of the Sheeting for Table Linen, Towels, &c., &c., or any of the Blankets or Rugs for ironing on; or to apply any of the Bedding, Furniture, or Utensils, to any other purpose than they were originally intended for; and on no account to suffer Coals to be wetted on the Floors of Boarded or other Rooms, or allow the Soldiers to wash their Arms therein, or permit any alterations whatever to be made in the premises under their charge, or in the Barracks, or Hospital Rooms, by removing the Bedsteads therefrom, or by nailing posts to them, or otherwise, whereby they may be injured or loosened in the joints; or by fixing up shelves, racks, hooks, boards, or driving nails in the walls, whereby the plastering may be destroyed; and for the better preventing such abuses, the Commanding Officer shall appoint a Subaltern Officer to visit each Room every day, and to report whether any infringement of this Order shall have taken place. Nor shall any Officer, under any pretence whatsoever, make, or attempt to make, any alteration

in any part of the Buildings, Rooms, or Offices, or convert them to any purpose except such as they were intended for in the original plan of the Officers' Quarters, Barracks, or Hospitals; and to the end that there may not be any mistake hereafter in a matter so material to the preservation of good order of the said Officers' Quarters and Barracks, the Master-General and Board of Ordnance are hereby directed to have the use for which each Room is intended lettered on the Door; and if any Officer shall make, or attempt to make, any alteration in any part of the Buildings, Rooms, or Offices, or convert them to any purposes other than is so specified; or remove any of the Furniture belonging thereto; the Barrack-Master (who shall always be permitted to visit the Rooms at seasonable hours whenever he desires so to do) shall represent the same to the Commanding Officer; and in case immediate attention be not paid thereto, the Barrack-Master is hereby commanded immediately to report it to the Master-General and Board of Ordnance. And when any Room shall not be occupied, the same shall

shall be locked up, and no part of the Furniture be removed therefrom.

FIFTH.—The said Master General and Board of Ordnance, may if they think fit, and when it in no shape interferes with, or straightens the accommodation of the Men (permit, as an occasional indulgence, and as tending to promote cleanliness, and the convenience of the Soldiers,) Four Married Women per Troop or Company of Sixty Men, and Six per Troop or Company of One Hundred Men to be resident within the Barracks, but no Article on this Account shall be furnished by the Barrack-Master, except Bed and Bedding for the regulated number of Women.—And if the Barrack-Masters perceive that any mischief or damage arises from such Indulgence, the Commanding Officer shall, on their representation, displace such Women—nor shall any Dogs be suffered to be kept in the Rooms of any Barrack or Hospital.

SIXTH.—Where Kitchens are provided for the Soldiers, they shall not be allowed to dress their provisions in any other places.

SEVENTH.

SEVENTH.—No Officer or Barrack Master shall upon any Account make any alterations or repairs, at any Quarter, Barrack, or Hospital, or cause any expence to be incurred in providing any Article relative thereto, except under the directions of the said Master General and Board of Ordnance, and to the amount only, and on the occasions to be specified in such directions.

EIGHTH.—Officers commanding in Barracks shall not suffer any ashes, horse-dung, or litter to be put in any other places than those allotted for the purpose, and they are hereby strictly enjoined to keep the Yards and Parades free from filth and rubbish, and have them properly swept and rolled by the Soldiers. As the forming and keeping in repair the Foot-parades, Streets, and Walks, in the several Cavalry and Infantry Barracks is attended with great labour and consequent expence, no mounted Officer or Soldier is to be permitted to ride on such Foot-parades or Streets as are covered with gravel, and any damage done to such Parades and Streets contrary to the provisions of this article,

article, shall be charged to the Regiment or Detachment in charge of the same, as for damage done by the wantonness of the Troops.

NINTH.—Non-Commissioned Officers or Soldiers shall not be absent from the Barracks after sun set, without Tickets from the Commanding Officer, and no Fires or Lights shall be suffered in the Soldiers Rooms, or in the Galleries or Stables after Nine o'Clock at night, at which time an Officer shall visit them to see that this Order is strictly obeyed. And we do hereby direct and enjoin the Commanding Officers to use every precaution in their power to prevent accidents by Fire, and not to suffer that Candles be on any account carried about incautiously or into the Stables except in proper Lanthorns.

TENTH.—Wherever there is a Fire Engine attached to the Barracks, the Barrack-Master shall see that the same be properly taken care of, so as to be at all times fit for use, and shall observe such directions thereon, as you or the

Master

Master General and Board of Ordnance for the time being shall give to him, and subject thereto, shall request at proper seasons, such party of men as may be necessary to work the Engine, of the Commanding Officer of the Garrison who shall grant the same accordingly.

ELEVENTH.—The Barrack Masters shall regularly, or when required by the Commanding Officer, cause the Chimnies of the Barracks, Infirmaries, Guard-Houses and Offices to be carefully swept, and shall charge the expence thereof in their Quarterly Accounts, producing therewith the proper Vouchers and Receipts.

TWELFTH.—Whenever any Barrack Stores or other articles shall be reported by any Barrack Master to be unfit for the Public service, application shall be made by a person duly authorized by the Master General and Board of Ordnance, to the Officer commanding the Troops on the spot, to cause a Survey to be taken of them, who will for that purpose, take care that a Commissioned Officer of our Forces, not

not below the rank of a Captain, or the Quarter-Master of the Regiment, together with the person duly authorized above alluded to, and the Barrack-Master, be constituted the Surveyors duly authorized to proceed to examine the state of the Stores so reported to be unfit for public service. And all such Barrack Stores or other Articles as shall be condemned by a report in writing, signed by the said Surveyors, as totally unfit for the service, are to be sold, and disposed of under the direction of Our said Master-General and Board of Ordnance for the time being, to the best advantage; and all such as may be found serviceable by Repairs, shall be reported to the said Master General and Board of Ordnance, as such for their directions thereon.

THIRTEENTH.—The said Master-General and Board of Ordnance shall take care that a proper quantity of good and sufficient Firing and Candles, and other Stores, be provided for each Barrack and Hospital; and the same shall be duly delivered out to the Troops by the

 respective

respective Barrack-Masters, at such times, and in such proportions as are hereinafter mentioned.

The deliveries shall be made by the Barrack-Master, on the receipt of accurate Returns, stating the numbers in each Regiment, or Detachment, present on the day of each weekly delivery, and the quantity required, signed by the Commanding Officer of each Corps, Troop, Company, or Detachment, in the Barracks, which Returns shall be immediately transmitted to the Board of Ordnance.

FOURTEENTH.—Non-Commissioned Officers and Private Men, on their arrival at any Barrack, shall be supplied by the Barrack-Master with one pair of clean Sheets to each Bed, on the Receipt of which they shall pay to the Barrack-Master three-pence per pair for a double Bed, and two pence per pair for a single Bed, who shall change them once in every month, and receive the same sums for washing on each delivery. He shall also deliver round Towels

to

to each Room occupied by Non-Commissioned Officers and Private Men in the proportion of one round Towel per week to every eight Non-Commissioned Officers and Men of the Cavalry, and every twelve Non-Commissioned Officers and Men of the Infantry, to be fixed on rollers, for which he shall receive one penny per Towel for washing on each delivery. Hospitals are to be supplied with these articles as often as necessary, free of expence, the necessity being certified by the Commanding Officer and senior Medical Officer.

FIFTEENTH. — The arrangement of the Troops in Barracks and Hospitals, and the issue of Barrack Stores, shall be made in Great Britain and Ireland, and in our Colonies and Garrisons abroad, in conformity to the Schedules and Regulations hereunto annexed. The delivery of Coals and Candles in Great Britain and Ireland shall be made in proportions not exceeding the Regulations hereunto annexed, marked No. 1, for Troops in Barracks; No. 2, for Hospitals; and No. 3, for the supplies of

Bedding, Furniture, and Utensils; and the allotment and issues for Regimental School Rooms shall be made according to the Schedule No. 4. The deliveries to our Colonies and Garrisons abroad shall be made in proportions not exceeding the Schedules hereunto annexed, marked Nos. 4, 5, 6, 7, 8, 9, 10, and 11.

SIXTEENTH.—As local circumstances, with regard to the Barracks in Our Colonies and Garrisons abroad, arising out of their distance from this country, the nature of their climate, or other matters peculiar to their situation, or government, which cannot now be contemplated, may render it necessary to deviate in some degree from these Our Orders and Regulations, you are hereby authorized to make such deviation, as far as may be necessary, to meet the circumstances of the case, keeping in view the general spirit of Our Regulations; and when such deviation may lead to an increase of expence to the Public, by additional allowances, or accommodations to the Troops, you are to require

require Our Special Authority for the same, communicated to you through the Lords Commissioners of Our Treasury.

Given at Our Court at Carlton House, this 16th Day of March, 1824, in the Fifth Year of Our Reign.

By His Majesty's Command,

(Signed) Lowther,
G. C. H. Somerset,
E. A. Mac Naghten.

No. 1.

Number of Rooms allowed in Barracks for the Commissioned, Warrant, and Non-Commissioned Officers and Private Men, and for which Fuel and Candles are to be issued.

CAVALRY.

Field Officers, each	Two Rooms.
Captains, each	One
Subalterns, Staff Quarter-Masters, and Regimental Serjeant-Majors, each	One
The Serjeants of each Troop of Dragoons, and the Corporals of each Troop of Horse	One
Eight rank and file	One
Officers Mess (if exceeding three Officers)	Two
Ditto (if three or fewer Officers)	One
Two Staff Serjeants	One
Two Troop Serjeant-Majors	One

INFANTRY.

Field Officers, each	Two Rooms.
Captains, each	One
Subalterns, each	One
Staff, each	One
Twelve Non-Commissioned Officers and Private Men	One
Officers Mess (if exceeding three Officers)	Two
Ditto (if three or fewer Officers)	One
Serjeant-Major and Quarter-Master Serjeant	One
Two Staff Serjeants	One

The weekly deliveries of Coals and Candles for every Room occupied as above, are not to exceed the following quantities, viz. three Bushels and one Quarter of Coals, and two pounds and a half of Candles to the Cavalry, in November, December, January, February and March. The same quantity of Coals, and one pound and one quarter of Candles to the Infantry, for the same time; provided that the before-mentioned allowance of Coals may be extended

extended to a period not exceeding the 14th April in any district, upon the application of the General Officer commanding such district to the Commander-in-Chief of Our Forces, representing the expediency of such extension, and upon the approbation thereof by the Commander-in-Chief of Our Forces being signified to the Master-General and Board of Ordnance.

Two Bushels one half of Coals, and two pounds of Candles in April, September and October, to the Cavalry. The same quantity of Coals, and one pound of Candles to the Infantry, for the same time.

One Bushel three quarters of Coals, and one pound and a half of Candles in May, June, July, and August, to the Cavalry. The like quantity of Coals, and three quarters of a pound of Candles to the Infantry for the same time.

A Commissioned Officers' Guard, seven Bushels of Coals, and four pounds of Candles, from 1st September to 1st May. A Non-Commissioned Officers'

Officers' Guard, half those quantities of Coals and Candles for the same time, but in both cases, an issue of Coals in severe weather, not exceeding double the Winter allowance may be granted on the requisition of the Commanding Officer.

Issues of Candles during the Summer months, viz. two pounds per week to a Commissioned Officers' Guard, and one pound per week to a Non-Commissioned Officers' Guard.

Wherever there is an Orderly Room at a Barrack, and the Barrack shall be occupied by one hundred men and upwards, one Room's issue of Coals and Candles may be made for it, provided the Room is actually used for that purpose.

Wood may also be issued for lighting the Fires in such proportions as the Master-General and Board of Ordnance may find it necessary, not exceeding three pounds per week for each Fire.

When

When any Troops shall be placed in Barracks or Hospitals, which from their construction may not require the whole of the several articles of Furniture, Fuel and other Stores allowed by these Regulations, the Master-General and Board of Ordnance shall direct the issue of such articles, or such proportions thereof as shall appear to them to be sufficient for the comfort and convenience of the Troops.

Officers having Brevet Rank, can only receive allowances in Barracks for their Regimental Commissions, and Officers holding two Commissions can only receive allowances for one of them.

Barrack Stores are only allowed from the day on which the issue shall take place, and no arrears are to be made up, and all Barrack Masters are strictly enjoined not to give or allow to be given, any commutation either in money or otherwise for the same.

N. B. When Sea Coal is not used, one hundred

dred pounds net weight of Coal is considered as equal to a Bushel, and in Ireland where Turf is issued in some places in lieu of Coals, the Turf Kish is to be considered equal to a Bushel of Coals, the Turf Kish measures four feet long, two and a half feet deep, and two feet wide in the clear, being twenty cubical feet.

When it is found necessary to have Lights in the Passages and Galleries in the several Barracks, one pound of Candles will be allowed per week for each Lanthorn, from 1st September to 1st May.

The Barrack Master is to supply the Non-Commissioned Officers and Private Men in Barracks, with Straw for each Paillasse every sixty days, and the same for the Paillasses of the Officers Servants to whom the same quantity of bedding is allowed as to a Private Soldier, but in the exchange of Corps, if the Straw has been in use thirty days by the preceding Corps, fresh Straw is to be issued to the Corps marching into Barracks.

No. 2.

Rules for issuing Fuel, Light, and Straw, for the use of Barrack Hospitals.

One Room's allowance of Fuel and Light in the proportions expressed in Schedule No. 1. for the Infantry, are to be issued weekly for each Ward, Kitchen, and Surgery occupied; and in Wards wherein are two fire places, Two Rooms issues of Fuel may be made when required, and a further issue of Coals for Kitchens so as in no case to exceed two Double Winter allowances, but in all instances where any increased allowance of Fuel is found indispensibly necessary for the comfort or convenience of the Sick, such increased allowance to be issued only on the Requisition of the Commanding Officer, and a Certificate of the Surgeon, that the state of the Sick in Hospital at the time, is such as requires

requires the extraordinary issue of the quantity specified in the Certificate, which Requisition and Certificate of the Commanding Officer and Surgeon shall be signed by the Barrack Master, and returned with his Weekly Return of issues to the Master General and Board of Ordnance. Straw to be issued for the number of Patients in the Hospital, in the proportions and at such periods as may be necessary, on the Certificate of the Surgeon, and Requisition of the Commanding Officer.

No. 4.

SCHOOL ROOMS.

In each Barrack constructed for 1,000 Men, and not exceeding 2,000, such Barrack Room, Building or other Apartment, as may be considered most eligible, by the General or other Officer Commanding in the District or at the Station, and by the Assistant Inspector General of Barracks, or in his absence, by an Officer of the Barrack Department, shall be given up for the purpose of a Regimental School, to be kept open during the day time only, and to be marked "The School Room." The Room shall be provided, under the Orders of the Master-General and Board of Ordnance, with such moveable Desks, Tables, and Forms, as may be necessary, care being taken to disturb as little as possible the Barrack Fixtures, Furniture, and Accommodation.

The

The School Room so set apart, is to be for the accommodation of Young Soldiers, and of the Children of those Soldiers, whose Wives (to the extent of the number limited by the King's Regulation in this behalf,) shall be allowed to accompany their Husbands.

One Room's allowance of Coals shall be issued for the School Room, by the Barrack Department, from the 1st day of October, to the 30th day of April, both days inclusive, to be regulated by the issue to the Troops during the same period, according to the number of Fire Places and size of the Room. But when the School Room is used by the Young Soldiers, and Children of more than one Regiment, they are to apportion the fuel themselves; the Barrack Master being held responsible, no further, than in making the issues by the day or the week, as may be considered most convenient.

In Barracks constructed for 2,000 Men, but not exceeding 4,000, Two School Rooms, if necessary, shall be fitted up in the same manner as

as before mentioned; and two Rooms allowance of Coals and Candles be issued for them, and in Barracks still more extended, such additional Rooms as may be found necessary, shall be appropriated with the like Furniture and allowances of Coals.

In Barracks where the construction is for the accommodation of less than 1,000 Men, a Room for the School is in like manner to be appropriated, but without dismantling it, the Tables and Forms belonging to the Barrack Room to be used, and such other articles and moveable Desks as may be wanted to be supplied; and on the Requisition of the Officer Commanding the District or at the Station, the necessary issue of Coals is to be made, not exceeding what would be issued for the Room, if occupied as a Barrack.

In all cases, where sufficient Room for the whole number of the Scholars at one time cannot be appropriated, without infringing on the space necessary for the Troops, a proportion of

of the Scholars shall attend the School in the forenoon, and the remainder in the afternoon. Each Serjeant Schoolmaster is to be responsible, that all wilful damages and deficiencies occasioned to the School Room, are immediately reported to the Officer Commanding at the Station, together with the names of the Parties occasioning the same; and such Commanding Officer is to cause the damages or deficiencies to be made good by the young Soldiers, or by the Parents of the Children, as the case may be, or take such other steps as shall be necessary to prevent a repetition of the injury or loss.

The Serjeant School Master is to be considered as a Regimental Staff Serjeant, and to be placed on the same footing, in regard to Barrack Accommodation, as is prescribed for other Staff Serjeants.

By His MAJESTY's Command.

(Signed) B. PAGET.

Regimental Staff Officers, each ..... One

Twelve Non-Commissioned Officers and Privates ..... } One

Officers' Mess—as to Cavalry
Two Staff Serjeants ..... One

Where Candles are not issued, one pint and a half of Oil is to be considered equal to one lb. of Candles.

In Barracks, where it is necessary to have Lights in the Stair Cases, Galleries, and Passages, one

one Gill of Oil will be allowed for each Lamp during the Winter Months only; and Cotton Wick in the proportion of two Ounces to one Gallon of Oil. Whenever Night Rounds or Patroles are ordered, the Commandant or Officer Commanding the Garrison or Post, (where it is considered necessary) is to make a Requisition for the quantity of Candles to be supplied, which the Storekeeper or Barrack Master is to issue on the receipt of such Officer.

In these Regulations, no Officer is to be considered as entitled to any Extra Issues, according to his Brevet Rank, or in consequence of being in Command of a Regiment or Detachment, but is to receive the Issues for his Regimental Rank only; and Officers holding two Commissions can only receive Allowances for one of them.

When any Troops shall be placed in Barracks and Hospitals, which, from their construction, may not require the whole of the several Articles of Furniture, Fuel, and other Stores allowed by

by these Regulations, the Master General and Board of Ordnance shall direct the Issue of such proportion thereof as shall appear to them to be sufficient for the comfort and convenience of the Troops.

Barrack Stores are only allowed from the day on which the Issue shall take place, and no arrears are to be made up, and all Barrack Masters are strictly enjoined not to give, or allow to be given, any commutation either in money or otherwise, for the same.

One Rooms allowance of Fuel and Light is to be issued Weekly for each Ward, Kitchen and Surgery occupied; and in Wards wherein are two Fire-places, two Rooms issues of Fuel may be made when required; but in all instances, where an increased Allowance of Fuel is found indispensably necessary, for the comfort or convenience of the Sick, such increased allowances to be issued only on the requisition of the Commanding Officer, and a Certificate of the

Surgeon, that the state of the Sick in Hospital at the time, is such as requires the extraordinary issue of the quantity specified in the Certificate.

No. 5.

No. 5.

Schedule of Fuel, Candles, &c. for Canada, Nova Scotia, New Brunswick, and Newfoundland.

The Number of Rooms for Regimental Officers and Men in Barracks being fixed by the General Schedule, the following will be the proportions of Fuel, Candles, &c. allowed to be issued for each Room.

WINTER MONTHS.

Between 24th September, and 5th May, inclusive.

For each Room ¾ of a Cord of Wood, or Six feet English measure. Where the Sticks are short as in Lower Canada, one Cord or Eight feet.

 When

When Coals are used, they are to be issued in the proportion of $\frac{1}{3}$ to $\frac{2}{3}$ Wood; except to Guards and Hospitals, where the whole of the Fuel may be drawn in Wood.

One lb of Candles to be issued for each Rooms Allowance during the above period.

SUMMER MONTHS.

Between 6th May, and 23d September, inclusive.

For each Room, one foot of Wood, except in Lower Canada, where $\frac{1}{3}$ more, or 1 foot 4 inches may be issued; but no allowance of Candles to be granted during this period, except to Guard Rooms, where $3\frac{1}{2}$ lbs. may be drawn for the Winter allowance, and $2\frac{1}{3}$ lbs. for the Summer.

The

The relative proportion of Coals to Wood, to be, Nine Bushels, as equal to $\frac{3}{4}$ of a Cord of Wood in Upper Canada, or to One Cord in Lower Canada.

Stables occupied by Officers and Troop Horses of Regiments of Cavalry, and of the Royal Artillery to be allowed 1 lb. of Candles for every 8 Horses during the Winter Months.

No. 6.

No. 6.

Schedule of Fuel and Candles, &c. for the Windward and Leeward Islands, and the Bahamas.

The Officers entitled to Barrack allowances and the proportion of Rooms for each, being regulated by the General Schedule, the Weekly allowances for each Room are to be 1-16th Cord of Wood, (the Cord consisting of 8 feet) or two Bushels of Coals, and 1 lb. Candles; which issues are to continue the same at these stations during the whole Year.

No. 7.

Schedule of Fuel and Light for the Mediterranean.

The proportion of Rooms to be allowed in Barracks for Officers and Men being fixed by the General Schedule, the following are the daily Rations for each Room.—The Ration being Wood, 2 lb.

OIL.

1st May to 31st October, inclusive		2 Ounces
1st November to 30th April do.		4 do.
Guards	1st October to 30th April, inclusive	6 Ounces
	1st May to 30th September, do.	4 do.

No. 8.

Schedule of Fuel, Candles, &c. for Bermuda.

The proportion of Rooms for Officers and Men in Barracks to be regulated by the General Schedule. The Winter allowance commencing on the 25th November, and ceasing on the 24th March, a Rooms allowance to consist of three Bushels of Coals, and $1\frac{1}{4}$ lb. of Candles.

The Summer allowance to commence on the 25th March, and to cease on the 24th November, to consist of $1\frac{3}{4}$ Bushels of Coals, and $\frac{3}{4}$ lb. of Candles.

$1\frac{1}{4}$ Pint of Oil to be issued Weekly for each Guard.

Cotton as per General Schedule.

No. 9.

No. 9.

Schedule of Fuel, Candles, &c. for Gibraltar.

The Barrack Rooms for Regimental Officers and Men being regulated by the General Schedule, the Weekly issue for each Room will be three Bushels of Coals and 1 lb. of Candles, in Winter; and two Bushels of Coals, in Summer; the Summer allowance commencing on the 1st April, and ending on the 30th September; and the Winter allowance on the 1st October, and ending on the 31st March.

The issues of Oil to be in the proportion of 16 Ounces for each Room in the Summer, and 21 Ounces in the Winter.

No. 10.

Schedule of Fuel, Candles, &c. for the Cape of Good Hope.

The proportion of Rooms for Officers and Men in Barracks to be regulated by the General Schedule. The full allowance to commence on the 1st of April, and to terminate on the 30th of September, to consist of 21 lb. of Wood, and 1¼ lb. of Candles to each Room per Week.

The short allowance to commence on the 1st of October, and to terminate on the 31st of March, to consist of the same quantity of Wood, and 1 lb. of Candles.
